3 FINDINGS OF FACT

- 4 1. The classification of all County roads is required by Pierce
5 County Code Chapter 12.08, as adopted by the Pierce County
6 Council.
- 7 2. There is a strong need to update the existing road
8 classifications, adopted in 1989 by County Ordinance 89-149,
9 because of the construction of new roads and road connections,
10 and changes in the functionality of certain existing roads due to
11 new development, traffic growth, and roadway improvements.
- 12 3. There is also a need to incorporate housekeeping items in the
13 updating of the current road classifications, to reflect
14 jurisdictional changes, road name clarifications, and effects of
15 certain road closures.
- 16 4. Implementation of this proposal will enhance safety of the
17 motoring public on affected roads through the installation of
18 centerline striping, stop signs on intersecting local road
19 approaches, consideration of appropriate arterial speed limits,
20 and appropriate application of County road design standards.
- 21 5. This proposal is consistent with the Pierce County Transportation
22 Plan and the Pierce County Road Standards, and the guidelines
23 listed in both documents for the functional classifications of
24 roads.
- 25 6. This proposal and the resulting implementation actions such as
26 described in item 4 above are categorically exempt in regard to
27 the State Environmental Policy Act provisions. No construction
28 will result from this proposal.

Chapter 12.08

PIERCE COUNTY ROAD CLASSIFICATION PLAN

Sections:

12.08.010 Classification of County Roads.

All roads within Pierce County shall be classified as major arterials, secondary arterials, collector arterials, local roads or primitive roads pursuant to RCW 36.86.070. The County Engineer of Pierce County is directed to implement the arterial designations described in this Chapter through the use of appropriate traffic control devices. (Ord. 89-149 § 3 (part), 1989; Ord. 85-43 § 2, 1985)

12.08.030 Plan Available at the Development Center.
